

## INLET COVERS & FILLING MATERIALS

### MH-MOLTOPLAST healthcare-inlet cover

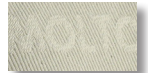

Pre-shrunk cotton, in line with DIN13013/14, weight approx. 240g/m<sup>2</sup>, cover and pillow washable up to 95°C, can be tumble-dried, can be sterilised in an autoclave up to 105°C.

### FILL MED-filling material

Filling material for support and soft bedding for medical purposes, consisting of EPP beads, foam rubber rods RG50 and viscoelastic rods

### FILL PREMIUM-filling material

Filling material for soft bedding consisting of foam rubber rods RG35, blue. The pillows are dimensionally stable and have a long service life thanks to the high density.

All pillows available with FILL MED or FILL PREMIUM filling.  
We also manufacture pillows according to your specifications
